Agfamatic Auto star Pocket

The Agfamatic Auto star was manufactured in Germany, India and Brazil in 1976. Auto star model is the cheapest and simplest model in the Agfa range. It is the only Agfa pocket without release button sensor but with a large button of metal in a plastic body. There is no speed choice, film advance is by a button and has a simple viewfinder

Film type is 110 for 16mm film.

This camera has colour optar Lens with 1:11/32mm range and Single Shutter Speed. The built in flash is a magicube type. Viewfinder is fixed.

Accessories: black nylon strap and magicube plug.
